# SAIT - SAITEKO Abrasive wheels

## ▼ GRINDING WHEELS FOR PORTABLE MACHINES

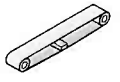

Resinoid, reinforced for steels, stainless steel, aluminium, cast iron and wheels for food and nuclear processing plants.  
Ø 100 ÷ 230 mm.

## ▼ CUTTING WHEELS FOR PORTABLE MACHINES

Resinoid, reinforced for steels, stainless steel, aluminium, cast iron, stone and building materials. Special type for food and nuclear processing plants. Depressed and flat shape.  
Ø 75 ÷ 400 mm.

# SAITEX Abrasive cloths

## ▼ ROLLS

35 kinds of full resin bonded abrasive cloth, for application on metal, wood, leather, glass and stone.  
Width of rolls 1525 mm; other dimensions on request.

## ▼ BELTS - WIDE BELTS - SLEEVES

Available in every combination of type, size and grit. Cylindrical and conical sleeves. Reinforced and not reinforced.

# SAITAC Abrasive papers

## ▼ ROLLS

21 types of full resin bonded abrasive paper, for wood, leather, marble and metal.  
Width of rolls 1600 mm; other dimensions on request.

## ▼ SHEETS

7 lines of products in aluminium oxide - with and without lubricant - and silicon carbide. Dry and wet application.  
Grits: 40 ÷ 1200.

▼ **CUTTING WHEELS FOR FIXED AND BENCH-CUTTING MACHINES**

Resinoid, reinforced for steels, stainless steel, aluminium, cast iron and building materials.  
Ø 250 ÷ 600 mm.

▼ **GRINDING SEMIFLEXIBLE DISCS**

Resinoid, reinforced for aluminium, stainless steel, stone. High stock removal. High finishing level.  
Ø 115 - 125 - 180 mm.

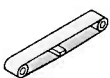

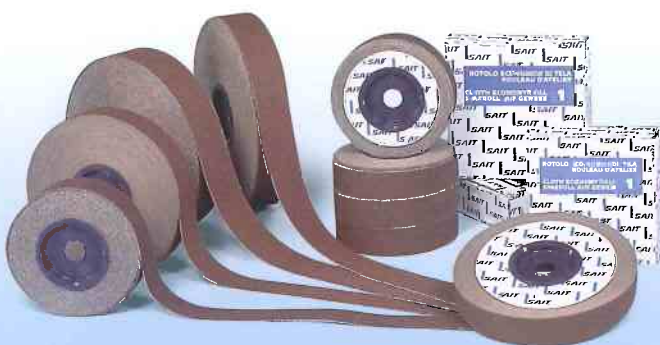

▼ **ECONOMY ROLLS**

Produced with very flexible cloth for hand-working operations.  
Width: 25 - 38 - 50 mm.  
Length: 25 - 50 m.

▼ **SHEETS - STRIPES**

Produced with very flexible cloth for hand-working operations and portable machines.  
Sheets: 120 x 280 mm - 190 x 280 mm - 230 x 280 mm.  
Stripes: 115 x 280 mm with 10 holes.

▼ **BELTS - WIDE BELTS**

Available in every combination of type, size and grit on E, F backing. Open and extra open structure for hand-working operations on hard, resinous, laked and painted woods. Antistatic paper on F backing.

# SAITDISC Fibre discs

- ▼ **13 types** of abrasive discs manufactured with vulcanized fibre (thickness 0,8 mm) in aluminium oxide, silicon carbide, zirconia. Applications on metals, marble and building materials. Special type for stainless steel.

# SAITOR Flap wheels

- ▼ **SHAFT MOUNTED**  
Manufactured in full resin bonded abrasive cloth, aluminium oxide and silicon carbide. Special type for stainless steel.

- ▼ **WITH FLANGES**  
Manufactured in full resin bonded abrasive cloth, aluminium oxide and silicon carbide. Used on metal and stone. Special type for stainless steel.

# SAITAC Discs and stripes

- ▼ **SELF ADHESIVE**  
Paper discs in aluminium oxide - with and without lubricant. Use on portable machines for bodywork and wood. Ø 150 mm, without holes. Grits: 40 ÷ 500.

- ▼ **VELCRO**  
Discs in aluminium oxide - with and without lubricant - and silicon carbide. Use on portable machines for bodywork, wood and marble. Discs: Ø 115 ÷ 203, without holes, 6 holes, 7 holes, 8 holes, 8+1 holes. Stripes: 115 x 230 mm, 10 holes. Grits: 40 ÷ 1500.
